What's new this year?

We are thrilled to announce the launch of the STEMP21 Program at KPS - Safavi, marking a significant step forward in our mission to provide students with a dynamic, future-ready education. In today's fast-paced world, it is essential to equip our learners with skills that go beyond textbooks. Through the STEMP21 program, our students will explore real-world challenges, engage in hands-on experiments and collaborate on interdisciplinary projects that spark creativity and curiosity.
